BREVE DESCRIZIONE

The baltic 51 was a high performance, easily handled yacht with a functional deck layout

DESCRIZIONE COMPLETA

The Baltic 51 was a high performance, easily handled yacht with a functional deck layout which was equally suited for safe family cruising and fast IOR racing. This was the 5th serial production yacht in cooperation with C&C Design, and as with the previous Baltic 39 and Baltic 37, detailed comprehensive computer performance studies were used in the design evaluation. C&C Design's chef designer Rob Ball and his team put in a lot of effort into the pre-studies for this design again resulting also in polars and performance numbers that could be used as targets for the racing owners.
