DESCRIZIONE INTERNI

INTERIOR
Enjoyment is everything aboard the Custom Line 106, and in every detail, you will see the enormous care that has been taken to make everything as comfortable, convenient, attractive, and user-friendly as possible. Cut down bulwarks, for example, make the very most of the views out from the saloon, and from the owner's suite forward on the main deck which also has a fold-down balcony. Both the layout and the furnishings can be extensively customized according to an owner's wishes, but the basic layout on the lower deck would be 4 guest suites plus a separate crew area for up to 5.

EXTERIOR
On deck, as with the interior, everything is optimized for maximum enjoyment. The amount of space is extraordinary, and Custom Line has made use of every inch, particularly on the flybridge, where there is acres of uncluttered floor space to use as you wish, and on the foredeck, where there are 2 separate lounging areas on two different levels, plus a seating area.
